- Life Sciences
- Mathematics
- Law
- Humanities
- Social Sciences

Benefit from advertising in academic journals
- Associate your message with highly respected, peer-reviewed journals.
- The long shelf-life of journals, strong partnerships with societies, libraries, and authors means maximum exposure for your message.
- Optimal reach and impact within your target market.
What’s new in 2012?

European Journal of Cardio-Thoracic Surgery and Interactive Cardiovascular and Thoracic Surgery

European Journal of Cardio-Thoracic Surgery (EJCTS) and Interactive Cardiovascular and Thoracic Surgery (ICVTS) have joined the prestigious Oxford Journals group and will be published by Oxford University Press from 2012. Membership to the European Association for Cardio-Thoracic Surgery and the European Society of Thoracic Surgeons includes a subscription to these journals. Any advertisement in conjunction with these publications will reach over 4,500 decision-makers in this field.

Also joining us in 2012 is Multimedia Manual of Cardio-Thoracic Surgery (MMCTS), the premier online manual of cardiovascular and thoracic surgical procedures. Authored by experts in the field, MMCTS includes how-to descriptions along with informative videos and drawings to illustrate all the key points from the article.

More new titles:

The Journal of the Pediatric Infectious Diseases Society (JPIDS) is dedicated to perinatal, childhood and adolescent infectious diseases. This journal will sit alongside the Infectious Diseases Society of America’s (IDSA) highly cited and internationally prestigious journals: Clinical Infectious Diseases (print run of over 10,000) and The Journal of Infectious Diseases (print run of over 9,000).

From 2012, Oxford University Press will publish Social Work, Social Work Research, Health & Social Work and Children & Schools on behalf of the National Association of Social Workers (NASW). The NASW is the largest Social Work organization in the world and is very well respected. This partnership helps to further solidify our reputation as the leading publisher in Social Work.

**ACTA BIOCHIMICA ET BIOPHYSICA SINICA**

ABBS, an international peer-reviewed journal, aims to publish original research articles and review articles across diverse fields of biochemical research, including protein science, nucleic acids, molecular biology, cell biology, biophysics, immunology, and signal transduction.

**Annals of Botany**

Annals of Botany is one of the official journals of the Annals of Botany Company, a not-for-profit educational charity established to promote plant science worldwide. This journal is one of the leading journals worldwide in the area of plant science.

**Behavioral Ecology**

Behavioral Ecology is the official journal of the International Society for Behavioral Ecology (ISBE). The journal brings together significant work on all aspects of the field and covers both empirical and theoretical approaches. Studies on the entire range of behaving organisms are featured, including plants, invertebrates, vertebrates, and humans, as are reviews of significant new publications.

**Bioinformatics**

The leading journal in its field, Bioinformatics publishes the highest quality scientific papers and review articles of interest to academic and industrial researchers. Its main focus is on new developments in genome bioinformatics and computational biology. Bioinformatics is an official journal of the International Society for Computational Biology.
Bioscience Horizons is a free online journal publishing the best undergraduate bioscience research from the UK and Republic of Ireland. The journal provides a forum for students, their supervisors, and universities, to showcase high-quality undergraduate research work, strengthening the link between teaching and research in higher education.

The Journal of Electron Microscopy, the official publication of the Japanese Society of Microscopy, aims to promote research combined with any type of microscopy techniques, not limited to electron microscopy, by publishing informative articles dealing with their theories, methods, techniques, and instrumentation as well as their applications to life and material sciences. The journal has appointed eminent scientists from around the world to be Regional Editors.

www.jmicro.oxfordjournals.org

Established in 1950, the Journal of Experimental Botany is sponsored by the Society for Experimental Biology as a medium for the publication of original papers and occasional review articles in the field of plant physiology, biochemistry, molecular biology, biophysics, and related topics. Its readers include specialists in botany, horticulture, forestry, soil science, agronomy, environmental and marine biology.

www.jxb.oxfordjournals.org

The first journal in genetics, Journal of Heredity maintains its tradition of scholarly excellence in the publication of genetics research. The journal covers organismal genetics in greater depth than ever before. Articles discuss gene action, regulation, and transmission in both plant and animal species, including the genetic aspects of botany, cytogenetics and evolution, zoology, and molecular and developmental biology.
