

ONLINE USAGE STATISTICS
FOR CONSORTIA ADMINISTRATORS

www.oxfordjournals.org/statistics

Online Usage Statistics

- Usage statistics are available for the entire Oxford Journals Online collection and were developed in consultation with the library community
- Usage statistics are produced in compliance with Release 2 of the COUNTER Code of Practice
- The reports are available across consortia and for individual organisations
- Reports are accessible by the consortia administrator for the total consortial usage and by library administrators for an individual institution

Data available for consortia administrator

All data is available in HTML and csv formats.

Reports are provided for each month, and cumulative for the year-to-date, for the following:

- Downloads by member institution
- Downloads by title
- Top articles
- Top advance access articles*

Summary of access by type (search, abstract, full text etc.) and usage of advance access articles

Usage by access method (IP address, ATHENS, username, etc.)*

* = *New for 2007*

See separate document for detail of library administrator reports

Statistics for Consortia

- Available to Consortia Administrator
- Accessible by username and password
- Usage statistics across site or sites
- Ability to drill into reports by member or by title
