

Author Statements for Publication

These statements must be signed by all contributing authors and submitted to the Age and Ageing Editorial Office. The signature box can be found on the last page of this form. If all authors are not able to sign the same copy of these statements, we are happy to accept multiple copies signed individually.

It is the responsibility of the corresponding author to ensure that all sections of this document and the final version of the manuscript have been read and approved by each of the contributing authors.

The peer review of a submitted manuscript will not be delayed while completion of these statements is pending, but accepted manuscripts will not be able to proceed to publication until signed statements from all authors have been received.

This document may be submitted by the following means:

- Email a scan to office@ageingmedicine.com
- Fax to +44 (0)117 927 3989
- Post to:
 - Age & Ageing Editorial Office
 - The Hub
 - 72 Prince Street
 - Bristol
 - BS1 4QD
 - UK
- The corresponding author can upload a scan to Manuscript Central as a “Cover Letter” along with the other manuscript files.

Full instructions for preparing and submitting a manuscript to Age and Ageing can be found in the Instructions to Authors page of our website

http://www.oxfordjournals.org/our_journals/ageing/for_authors/index.html

For further information or assistance, the Age and Ageing Editorial Office can be contacted on +44 (0)117 3700988 or office@ageingmedicine.com .

For Reference

The editors and publisher reserve the right to reject manuscripts which do not conform to policies of Age and Ageing or Oxford University Press. Submissions may be modified or shortened by the Editor before acceptance for publication.

Manuscripts should conform to the Uniform Requirements of the International Committee of Medical Journal Editors. www.icmje.org

For reporting of randomised trials, authors are advised to work to the guidelines in the CONSORT statement. www.consort-statement.org

Age and Ageing is a member of the Committee of Publication Ethics (COPE) www.publicationethics.org.uk . In accordance with the code of conduct we will report any cases of suspected plagiarism.

1. Manuscript Details

Manuscript Title:

Manuscript Central ID:

Corresponding Author:

2. Authorship

Full details of all contributing authors and institutions will be recorded on submission of your manuscript to Manuscript Central. These statements only require the names and signatures of the authors, which are recorded in the Signature Box at the end of this form.

Credit for authorship requires important contributions to designing and conducting study, analysing and interpreting data and writing the article. If there are more than ten contributing authors, we will require a short description of each individual's contribution to the research and its publication. This should be submitted as an appendix to these statements.

3. Declaration of Consent to Publication

All contributing authors must give signed consent for publication of the manuscript by Age and Ageing journal.

By signing this document, authors are declaring their consent for the manuscript to be considered for publication in Age and Ageing journal. The Signatures Box can be found on the last page of this form.

4. Duplicate Publishing

Submissions to Age and Ageing journal should not have been previously published (except as an abstract, in which case details should be given). Similarly, the article should not be under consideration by another journal. By signing this document authors are confirming that this manuscript is not currently under consideration by any other journal.

5. Declaration of Conflicts of Interest

We would not wish you or your co-authors to be embarrassed if any undeclared conflicts of interest were to emerge after publication. Contributors must therefore declare any commercial interests, such as directorships, share-holdings, consultancies, honoraria, grants, fees, gifts or travel expenses received from organisations whose product is used in a study or referred to in your article. Financial or personal interests in competing companies should also be stated.

Do any of the authors have interests in any company or institution that might benefit from the publication of this manuscript?

YES / NO

If yes, please provide details of potential conflicts of interest in the submitted manuscript under the heading "Conflicts of Interest", stating which authors they apply to. This should also be submitted as an appendix to these statements and will be included as a prominent paragraph in your published manuscript.

6. Declaration of Sources of Funding

All sources of funding must be disclosed. Authors must also describe what role their financial sponsors played in the design, execution, analysis and interpretation of data, or writing of the study. If they played no role the authors should state this.

Was this research or its publication funded?

YES / NO

Declarations of sources of funding should be included at the end of the methods section or, if there is no methods section, as an acknowledgement at the end of the text, under the heading 'Declaration of Sources of Funding'. Please list all funders and details of any grants. This declaration should also be submitted as an appendix to these statements.

7. Patient / Next of Kin Consent

If the manuscript contains images or personal medical information about an identifiable living individual, we will require the patient's consent for publication. If the patient cannot be traced then the information or image must be anonymised so that neither the patient nor anyone else could identify the patient with certainty. If the patient is dead we require permission from a relative.

Does the text or images within the manuscript contain personal medical information about an identifiable individual?

YES / NO

If yes, has consent has been obtained from the patient (or the patient's relative if deceased) for this information to be published in Age and Ageing journal and website?

YES / NO

The editor or publisher may require proof of consent to be produced.

8. Ethics Committee Approval

If appropriate, authors must explicitly state that any necessary ethics committee approval was secured for the study reported. The peer review of this manuscript will include ethical considerations. Research must have been approved by relevant bodies such as institutional reviews boards, ethics committees or national authorities.

Does the manuscript report research which requires approval by ethics committee(s)?

YES / NO

If yes, please state the name and location of the approving ethics committee(s).

.....
