To Whom It May Concern:

Authorship credit should be based on criteria developed by the International Council of Medical Journal Editors (ICMJE): (1) substantial contributions to conception and design, or acquisition of data, or analysis and interpretation of data; (2) drafting the article or reviewing it and, if appropriate, revising it critically for important intellectual content; (3) final approval of the version to be published. Authors should meet conditions (1) and (2) and (3). By checking the box to the right of the signature line, we certify that we have participated sufficiently in the work to believe in its overall validity and to take public responsibility for appropriate portions of its content.

We, the co-authors listed below, have read and approved the content of the manuscript referenced above.

We understand that this paper is being submitted for publication in the American Journal of Epidemiology and is not under consideration for publication elsewhere.
