

Biostatistics

Acknowledgement and Conflict of Interest Form

(All co-authors must sign this form, or complete and sign separate forms.)

Rational: *Biostatistics* research addresses important societal problems and is relied upon by other researchers, government, industry and the public. In respect for readers' trust, the journal requires authors to state any potential conflicts of interest. Specifically, authors must reveal i) any financial interest in or arrangement with a company whose product was used in a study or is referred to in the manuscript below; ii) any financial interest in or arrangement with a competing company; iii) any direct payment to an author(s) from any source for the purpose of writing the manuscript, and iv) any other financial connections, direct or indirect, or other situations that might raise the question of conflict of interest in the work reported or the conclusions, implications, or opinions stated. Such information must be communicated by the authors in a note following the text and references.
