

Britain Votes 2010

EDITED BY Andrew Geddes & Jonathan Tonge

The 2010 General Election proved to be one of the most dramatic contests of recent times. **Britain Votes 2010** provides a comprehensive analysis of the campaign and its remarkable aftermath. A team of experts assess the results, outline the new electoral demography and examine its national and regional variations. The book explores the ideas and fortunes of the Conservatives, Labour and the Liberal Democrats, discusses the impact of new campaign features, notably the leadership debates, and examines the key issues which featured in an exciting and unusual election. Combining retrospective analysis with assessment of likely future directions, **Britain Votes 2010** explores how the Conservative-Liberal Democrat coalition was formed and analyses whether coalition government is likely to become far less exceptional in future. **Britain Votes 2010** is indispensable for all scholars of British and electoral politics.

***Professor Andrew Geddes** is Chair of the Department of Politics at the University of Sheffield.*

***Professor Jonathan Tonge** is Professor of Politics at the University of Liverpool and President of the Political Studies Association of the UK.*
