www.oxfordjournals.org
Oxford University Press has been publishing high quality journal content at the forefront of academic research for more than a century. We are committed to aiding the dissemination of this research by digitizing the backfiles of the titles we publish, ensuring content is safeguarded for the future.

**The Oxford Journals Archive Delivers:**

**A Gateway to Knowledge**
By unearthing the foundations of current research, the 219 titles in the 2015 Oxford Journals Archive enable readers to explore the changes of opinion over the past 165 years and put present knowledge into context.

**Seamless Pathways**
Integrated searching via Google Scholar and PubMed, a mobile-optimized site, and access to content by IP address or remotely via Athens and Shibboleth (where available) offers readers seamless pathways to quality research.

**Enhanced Research Experience**
With online content hosted by our partners at HighWire, library users can benefit from the latest tools designed to enhance the research experience including toll-free linking from citations to any journal hosted by HireWire Press, and downloadable references in multiple formats including EndNote, ProCite, BibTeX, or RefWorks.

**Flexibility**
Flexible purchase options allow libraries to purchase the Archive outright to retain perpetual access, subscribe to the complete Archive, pick and choose by subject package, or select titles to purchase on a title-by-title basis.

**Library Benefits**
- Fill in the gaps in your library’s holdings
- Save shelf space by replacing print volumes with the online versions
- Monitor usage with COUNTER-compliant usage reports
- If a subscriber to the Oxford Journals Collection (content published from 1996 to the present day), you can provide seamless access to your users by completing your library’s collection of OUP journals content

---

**Aesthetic Surgery Journal** is a peer-reviewed international journal focusing on scientific developments and clinical techniques in aesthetic surgery. An official publication of the 2400-member American Society for Aesthetic Plastic Surgery (ASAPS), AJ is also the official English language journal of thirteen major international societies of plastic, aesthetic and reconstructive surgery.

**Journal of Medical Entomology** publishes reports on all phases of medical entomology and medical acarology, including the systematics and biology of insects, acarines, and other arthropods of public health and veterinary significance.

**Pathogens and Disease** publishes outstanding primary research on hypothesis- and discovery-driven studies on pathogens, host-pathogen interactions, host response to infection and their molecular and cellular correlates. It covers all pathogens – eukaryotes, prokaryotes and viruses – and includes zoonotic pathogens and experimental translational applications.

**JAMIA** is the American Medical Informatics Association’s (AMIA) premier peer-reviewed journal for biomedical and health informatics. JAMIA’s articles describe innovative informatics research and systems that help to advance biomedical science and to promote health. JAMIA is at the top of a fast-growing field that bridges the latest in medical research and clinical practice/policy.

**Nutrition Reviews** is a highly-cited, monthly, international, peer-reviewed journal that specializes in the publication of authoritative and critical literature reviews on current and emerging topics in nutrition science, food science, clinical nutrition, and nutrition policy. It is published on behalf of the International Life Sciences Institute.

The Science Archive

American Entomologist
Publishing since 1955

American Entomologist is a quarterly magazine that publishes articles and information of general entomological interest. Feature articles cover subjects of a broad interest to amateur and professional entomologists.

Environmental Entomology
Publishing since 1972

Environmental Entomology publishes reports on the interaction of insects with the biological, chemical, and physical aspects of their environment and is divided into the following sections: physiological ecology, chemical ecology, population ecology, community and ecosystem ecology, insect-symbiont interactions; biological control — parasitoids and predators, biological control — microbials, biological control — weeds, behavior; pest management, sampling, plant-insect interactions, molecular ecology and evolution, transgenic plants and insects.

FEMS Microbiology Ecology
Publishing since 1988

FEMS Microbiology Ecology publishes high quality papers that make a significant contribution to the field. It covers microorganisms in soil, aquatic and atmospheric habitats – including extreme environments – and includes natural, artificial and managed systems.

FEMS Microbiology Reviews
Publishing since 1985

FEMS Microbiology Reviews

Ranking 4th in Microbiology in the 2012 Thomson-Reuters Citation Reports, FEMS Microbiology Reviews publishes invited reviews from leading authors to provide comprehensive and authoritative coverage on key issues in microbiology.
Joining the Archive

**Journal of Economic Entomology**
*Publishing since 1907*

*Journal of Economic Entomology* publishes articles on the economic significance of insects. Readers include entomologists (both professional and amateur), and professionals in wide-ranging fields including environmental science, plant science (botany/horticulture), biology, medicine, veterinary science, and more.

**Journal of Mammalogy**
*Publishing since 1919*

The *Journal of Mammalogy* has been the flagship publication of the American Society of Mammalogists since 1919 and was voted one of the top 100 most influential serials in biology and medicine of the 20th century. Timely papers are published on mammalian behaviour, conservation, ecology, genetics, morphology, physiology, and taxonomy.

**Journal of Medical Entomology**
*Publishing since 1964*

*Journal of Medical Entomology* publishes research related to all aspects of medical entomology and medical acarology, including the systematics and biology of insects, acarines, and other arthropods of public health and veterinary significance.

**Mammalian Species**
*Publishing since 1969*

*Mammalian Species* is published by the American Society of Mammalogists with 15-25 individual species accounts issued each year. Each uniform account summarizes the current understanding of the biology of an individual species including systematics, distribution, fossil history, genetics, anatomy, physiology, behavior, ecology, and conservation.

**Economic Policy**
Publishing since 1985

Economic Policy is at the forefront of economic policy debate. Since its inception, Economic Policy has published some of the most cited studies anywhere in the world - on financial crises, deregulation, unions, the euro and other pressing international topics.

**Social Problems**
Publishing since 1953

Social Problems is the official publication of the Society for the Study of Social Problems and one of the most widely respected and read professional journals in the social sciences. This quarterly journal presents relevant and innovative articles that uphold critical perspectives on contemporary social issues.

**The Humanities Archive**

**The Monist**
Publishing since 1888

Founded in 1888 by Edward C. Hegeler, The Monist is one of the world’s oldest and most important journals in philosophy, and helped to professionalize philosophy as an academic discipline in the United States by publishing many influential 20th century philosophers. It publishes quarterly thematic issues edited by leading philosophers in the corresponding fields.

**The Law Archive**

**Arbitration International**
Publishing since 1985

Arbitration International provides quarterly coverage for national and international developments in the world of arbitration. The journal aims to maintain balance between academic debate and practical contributions to the field, providing both topical material on current developments and analytic scholarship of permanent interest. Arbitrators, counsel, judges, scholars and government officials will find the journal enhances their understanding of a broad range of topics in commercial and investment arbitration.
The Medicine Archive

International in scope, the Medicine Archive will appeal to those working in both clinical and research settings. It features high impact titles across a variety of fields from oncology, cardiology, neurology, and epidemiology to reproductive medicine, rheumatology, anaesthesia, gerontology, and public health.

74 titles are included in the Medicine Archive:
