About the 2015 Medicine Collection

The Oxford Journals Medicine collection is a vast repository of indispensable peer-reviewed research published in partnership with some of the world’s preeminent medical researchers and societies, including the European Society for Cardiology, the Infectious Diseases Society of America, the European Society for Medical Oncology, and the Gerontological Society of America.

Outstanding titles in this collection include: European Heart Journal, Clinical Infectious Diseases, The Journal of Infectious Diseases, The Journals of Gerontology Series A and B, and BJ/A: British Journal of Anaesthesia. No library is complete without this authoritative and comprehensive resource for pioneering medical research.

Highlights from the Medicine Collection

Transactions of the Royal Society of Tropical Medicine and Hygiene

- Impact Factor: 1.931
- Publishing since 1908
- 12 issues per year

Transactions of the Royal Society of Tropical Medicine and Hygiene is an official journal of the Royal Society of Tropical Medicine and Hygiene. It publishes authoritative and impactful original, peer-reviewed articles and reviews on all aspects of tropical medicine. The journal offers a respected voice for clinicians, health-related scientists, development organisations, and students.

American Journal of Hypertension

- Impact Factor: 3.402
- Publishing since 1988
- 12 issues per year

The American Journal of Hypertension is a monthly, peer-reviewed journal that provides a forum for scientific inquiry of the highest standards in the field of hypertension and related cardiovascular disease. The journal publishes high-quality original research and review articles on basic sciences, molecular biology, clinical and experimental hypertension, cardiology, epidemiology, pediatric hypertension, endocrinology, neurophysiology, and nephrology.

Medical Mycology

- Impact Factor: 2.261
- Publishing since 1998
- 8 issues per year

Medical Mycology is a peer-reviewed international journal that focuses on original and innovative basic and applied studies, as well as learned reviews on all aspects of medical, veterinary and environmental mycology. Its objective is to present the highest quality scientific reports from throughout the world on such divergent topics as the phylogeny of fungal pathogens, the application of new approaches in the treatment of mycoses such as nanoparticles, and descriptions of new or unusual fungi associated with human or animal diseases, excluding case reports.

British Journal of Anaesthesia

- Impact Factor: 4.354
- Publishing since 1923
- 12 issues per year

The British Journal of Anaesthesia (BJA) is the oldest and largest independent journal of anaesthesia. It publishes original articles of the highest standard in all branches of anaesthesia and is one of the most highly cited journals in its field. Published on behalf of the British Journal of Anaesthesia.

European Heart Journal

- Impact Factor: 14.723
- Publishing since 1980
- 48 issues per year

The European Heart Journal publishes the highest quality material, both clinical and scientific, on all aspects of cardiovascular medicine. It includes articles related to research findings, technical evaluations, and reviews. In addition, it provides a forum for the exchange of information on all aspects of cardiovascular medicine, including education issues. Published on behalf of the European Society of Cardiology.

The Journal of Infectious Diseases

- Impact Factor: 5.778
- Publishing since 1904
- 12 issues per year

Published continuously since 1904, The Journal of Infectious Diseases (JID) is the premier global journal for original research on infectious diseases. The editors welcome Major Articles and Brief Reports describing research results on microbiology, immunology, epidemiology, and related disciplines, on the pathogenesis, diagnosis, and treatment of infectious diseases; on the microbes that cause them; and on disorders of host immune responses. Published on behalf of the Infectious Diseases Society of America.

The Oxford Journals Collection

Features and Benefits for Libraries
- perpetual access to paid-for content
- access to content dating back to 1996
- subscribe to the entire collection, individual subject packages or a customized selection of titles
- COUNTER 4-compliant usage statistics
- digital preservation arrangements with CLOCKSS, LOCKSS, and Portico
- licence options available for individual libraries (single and multi-site) and consortia

Features and Benefits for Library Users
- access available via IP address or remotely, via Athens and Shibboleth (where available)
- integrated searching via PubMed and Google Scholar
- keep informed of the latest research with free email alerting
- downloadable references in multiple formats including EndNote, Zotero, ProCite, BibTex or RefWorks
- toll-free linking from citations to any journal hosted by HighWire Press
- mobile-optimized service, including offsite access

Aesthetic Surgery Journal
Impact Factor: 2.034
Publishing since 1981
8 Issues per year
Aesthetic Surgery Journal is a peer-reviewed international journal focusing on scientific developments and clinical techniques in aesthetic surgery. An official publication of the 2400-member American Society for Aesthetic Plastic Surgery (ASAPS), ASJ is also the official English language journal of thirteen major international societies of plastic, aesthetic and reconstructive surgery.

Journal of Crohn’s and Colitis
Impact Factor: 3.562
Publishing since 1980
8 Issues per year
The official journal of the European Crohn’s and Colitis Organisation (ECCO), JCC is concerned with the dissemination of knowledge on clinical, basic science and innovative methods related to inflammatory bowel diseases. The journal publishes original articles, review papers, editorials, leading articles, ECCO Guidelines, viewpoints, case reports, innovative methods and letters to the editor.

Journal of Medical Entomology
Impact Factor: 1.815
Publishing since 1964
6 Issues per year
Journal of Medical Entomology publishes reports on all phases of medical entomology and medical acarology, including the systematics and biology of insects, acarines, and other arthropods of public health and veterinary significance. JME is an official journal of the Entomological Society of America.

Journal of the American Medical Informatics Association
Impact Factor: 3.932
Publishing since 1994
6 Issues per year
JAMIA is the American Medical Informatics Association’s (AMIA) premier peer-reviewed journal for biomedical and health informatics. JAMIA’s articles describe innovative informatics research and systems that help to advance biomedical science and to promote health. JAMIA is at the top of a fast-growing field that bridges the latest in medical research and clinical practice/policy.

Nutrition Reviews
Impact Factor: 5.541
Publishing since 1942
12 Issues per year
Nutrition Reviews is a highly-cited, monthly, international, peer-reviewed journal that specializes in the publication of authoritative and critical literature reviews on current and emerging topics in nutrition science, food science, clinical nutrition, and nutrition policy. It is published on behalf of the International Life Sciences Institute.

Pathogens and Disease
9 Issues per year
Pathogens include all eukaryotes, prokaryotes and viruses that infect humans, including zoonotic pathogens. The editors of Pathogens and Disease aim to publish outstanding primary Research Articles, Short Communications, and MiniReviews reporting on hypothesis- or discovery-driven studies relating to pathogens, the host pathogen interaction, the host response to infection, and their molecular and cellular correlates.
